

# Your Financial Planning Team

Appointments: 703-343-6878

We're passionate about improving our client's current financial reality.

We believe that having a written, up-to-date financial plan will provide our clients with the highest probability of making smart choices about their money.

Regardless of a person's success or wealth, we estimate that very few people have their Total Financial Picture™ in order. Getting there will not happen by accident, it takes Commitment, Coordination, Consolidation, and Simplification!

Through coaching, we guide our clients using a defined seven-step financial planning process to benchmark their current financial reality, identify strengths and weaknesses, and deliver a comprehensive personalized strategy toward the goal of financial security. By working Together Everyone Achieves More (TEAM).

**Joachim W. Exner (John)**
